6. SHORTAGES IN OBLIGATION ARISING OUT OF INTERNAL NETTING OF TRADES FOR EQUITIES

With implementation of Direct pay-out of securities by Clearing Corporation (CC) to clients demat account, the process of handling security-wise internal shortages shall be handled by CC. On settlement date, CC will identify broker level, security-wise internal shortage by comparing broker level security-wise gross sell obligations vis-a-vis security-wise pay-in received. The gross sell obligation shall be computed as sum of net sell obligation of all clients for a security. Wherever, pay-in

quantity received is less than gross sell obligation quantity for a security across all clients, there is a case of internal shortage for that security. CC will handle internal shortage in the below given manner:

- On settlement date, CC will initiate direct pay-out of securities to client who had purchased shares on the trading day. Basis the internal shortage identified by CC as per process mentioned above, some clients may not receive direct pay-out of securities on the settlement date. As per CC's internal defined criteria, CC will solely decide and identify the clients to whom securities will be given as pay-out on settlement date and clients who will not receive securities. MOFSL does not have any role in identification of such clients.
- Post identification of internal shortages and completion of settlement process, CC will conduct an auction for obtaining securities for the impacted clients who have not received securities due to the internal shortage. Below scenarios may arise-
 - **Scenario 1 - Full short delivered quantity is obtained in the auction process:** CC will give pay-out to the impacted clients in Auction settlement.
 - **Scenario 2 - Partial short delivered quantity is obtained in auction process:** CC will solely decide and identify the clients to whom securities will be given as pay-out in auction settlement and clients who will not receive. MOFSL does not have any role in such identification of clients.
 - **Scenario 3 – Full short delivered quantity is not obtained during auction process:** CC will not give pay-out to any impacted clients.

- For clients who do not receive pay-out in auction settlement from CC, MOFSL, as per regulatory provisions will compulsorily close out such securities as per close out procedure / rates prescribed by CC. The impacted client will be credited with close out credit and said amount will be debited to the defaulting client.

The internal close out policy for handling internal shortages in Commodities is in line with the exchange policy for handling shortages at exchange level. Apart from this the seller will be additionally debited by 0.50% charges.

Thus, the buyer will get the credit of the shortage based on the calculation as mentioned above and the seller will be debited by the same amount + 0.50% charges.

(Above defined parameters are subject to change from time to time)

7. Conditions under which a client may not be allowed to take further position or the broker may close the existing position of a client :-

MOFSL may at its sole discretion decline to carry out the instructions for any reason whatsoever.

In case overall position of client / clubbed position of client as per the SEBI guidelines, and/or on the basis of criteria set by Exchanges, in a scrip / derivatives contracts has reached the Regulators prescribed Exchange limit / Market Wide Open Interest limit, then client may not be allowed to take further position, till such time Regulator prescribed limits comes down to create a new position.

Further in Exchange / Segments where client positions are monitored at group level (i.e. entities are clubbed by Exchanges as per their guidelines), those set / group of customers together have to abide by position limits as mentioned above.
