

ATHARVA ASHUTOSH PENDSE

Pune, India | +91 7020276312 | atharvapendse007@gmail.com | linkedin.com/in/atharva-pendse-026212256

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in SOC operations, SIEM monitoring, and incident response. Proven ability to analyze 20–30+ security alerts daily using IBM QRadar and Microsoft Azure Sentinel. Skilled in log analysis, threat detection, and correlation rule tuning across network, endpoint, and identity domains. Seeking a Junior SOC Analyst / Cybersecurity Analyst role.

TECHNICAL SKILLS

SIEM: IBM QRadar, Microsoft Sentinel, Splunk

Security Tools: Wireshark, Nmap, Microsoft Defender, Sophos

EDR Concepts: Incident Response, Threat Detection, SOC Operations, Log Analysis, Correlation Rules, MITRE ATT&CK;

Systems & Networks: Linux, Windows, TCP/IP, DNS, Firewalls, IDS/IPS, Active Directory

WORK EXPERIENCE

Cybersecurity Intern — Futurism Technologies, Pune

2025

- Monitored and analyzed 20–30+ security alerts daily across IBM QRadar and Microsoft Azure Sentinel, achieving consistent same-day triage and escalation to senior analysts.
- Investigated incidents spanning network, endpoint, identity, and email security domains; reduced false-positive alert volume by fine-tuning correlation rules and alert thresholds.
- Performed in-depth log analysis from firewalls, IDS, Windows Domain Controllers, Cisco devices, antivirus, and email gateways to identify and document suspicious activity patterns.
- Built and maintained custom dashboards and reports in SIEM platforms to improve security visibility and support data-driven incident response decisions.
- Collaborated with senior analysts to refine detection logic, contributing to measurable improvements in alert accuracy and investigation workflow efficiency.

PROJECTS

SIEM Log Analysis & Threat Detection Lab

Microsoft Sentinel · IBM QRadar · Splunk

- Designed and implemented a multi-platform home lab to simulate real-world SOC workflows, ingesting logs from Windows/Linux endpoints, firewalls, and authentication services.
- Developed and tuned detection rules to identify failed login patterns, brute-force attempts, port scans, and privilege escalation events across all three SIEM platforms.
- Documented end-to-end detection logic and investigation runbooks, creating reusable reference material for incident response procedures.

Teacher Paper Checking Management System

Android · Java · SQLite · XML

- Developed Android app with role-based access and offline data storage using SQLite

EDUCATION

B.Sc. in Computer Science — MAEER's MIT Arts, Commerce & Science College, Alandi (D), Pune2022 – 2025

CGPA: 8.13 / 10

12th — Board of Secondary Education, Pune

2020 – 2022

10th — Board of Secondary Education, Pune (85%)

2019 – 2020

CERTIFICATIONS

- Advanced Certification in Cybersecurity with AI — Futurism Technologies, Pune (2025)
- Java Programming Certification — Core Java & Object-Oriented Programming
- Python Programming Certification — Fundamentals, Data Structures & Automation
- Cambridge English Linguaskill — B1 Level (Professional Communication)
