This course simplifies mutual funds for beginners, helping you make smarter investment decisions. Learn key terms, concepts, categories, and risk factors, with live examples and practical demos to build confidence and start your journey toward wealth creation.

Share Market Complete Guide

(Hindi, English)

Gain a complete understanding of Stock Market trading, from basics to advanced strategies. Learn about stocks, brokers, exchanges, order types, and technical analysis with key indicators like Bollinger Bands and RSI. Master risk management, money management, and trading psychology to trade confidently and effectively. This course equips you with the skills needed for informed and successful trading. Enroll now and take your trading expertise to the next level!

Crypto Mastermind

(Hindi, English)

This course is designed for beginners and intermediate traders to master cryptocurrency markets. Learn blockchain fundamentals, technical analysis (charts, trends, indicators), and essential risk management strategies. Understand trading psychology to control emotions and minimize losses. Gain practical insights and resources to navigate the crypto market with confidence. Enroll now and start your crypto journey!

Guide to Value Investing

(Hindi, English)

This course focuses on the value investing approach, a strategy followed by some of the world's greatest investors. You'll learn key tools and concepts of value investing in the stock market, with live demonstrations for practical understanding. Discover how these principles can help you build long-term wealth through smart, informed investment decisions

The Ultimate Guide to Stock Research

(Hindi, English)

This course is perfect for beginners with little to no knowledge of investments. Many new investors rely on tips to choose stocks, often leading to losses. In this course, you'll learn the fundamentals of stock research, including essential tools, websites, concepts, terms, and risk management. By the end, you'll be equipped to create your own investment strategy and make informed decisions—without relying on third-party tips

Forex- T.I.M.E

(Hindi)

Gain the skills and knowledge to trade Forex confidently and profitably. This course covers fundamental and intermediate concepts, including the history of money, market structure, and key trading terms like Bid, Ask, Spread, Pips, Leverage, and more. By the end, you'll be equipped to navigate the Forex market effectively and build a successful trading strategy.

Mastery of Stock Market

(Hindi, English)

This comprehensive Mastery of Stock Market course provides a complete roadmap – from basic concepts to advanced institutional trading strategies. Designed for both beginners and experienced traders, it focuses on mastering technical analysis, price action, and Smart Money Concepts (SMC). Through live market examples, hands-on exercises, and practical insights, learners will gain the confidence to analyze charts, manage risk, and execute trades professionally.
