📍 H.I.G-150, B.D.A Colony, Pokhariput, Aerodrome area, Bhubaneswar, Odisha, khurda--751020

SUMMARY

Results-driven professional with proven expertise in Incident Management and Logistics Operations, supporting international clients across the US and Australia. Experienced in handling end-to-end incident management processes including ticket closure, escalation handling, and SLA compliance through multi-channel support (email, voice, chat). Skilled in logistics and supply chain management, with hands-on exposure to procurement, billing, package investigation, and damage claims resolution. Adept at conducting root-cause analysis, documentation, and workflow optimization to improve efficiency and customer satisfaction. Skilled in managing the end-to-end order lifecycle, including order processing, shipment tracking, returns, refunds, and claims investigations. Proficient in managing client expectations and maintaining customer interaction (voice, email, chat) with high SLA adherence. Resolution.

EXPERIENCE

Technical Support Executive

Infosys BPM

- Provided first-level technical and operational support to Australian clients via voice, channels.
- Handled escalations to higher-level teams after impact assessment and managerial approval, ensuring smooth handover.
- Conducted incident categorization, prioritization, and documentation to maintain service continuity and compliance.
- Supported the Physical Access and Hazard Management process, granting secure customer access through Citrix and internal systems.
- Ensured customer satisfaction and service reliability by troubleshooting issues, coordinating with cross-functional teams, and maintaining communication throughout the incident lifecycle.
- Facilitated secure physical access management for Telstra sites through Citrix-based ticketing tools, ensuring compliance with safety and security protocols.
- Monitored and authorized access requests for employees, vendors, and contractors, validating credentials and approvals for granting entry.
- Coordinated with facility management and operations teams to address escalated physical access or hazard issues in real time.

- Ensured adherence to workplace safety standards and Telstra policies while minimizing risks and downtime during incidents.

Preferred Customer Care Associate

UPS Logistics |

- Supported supply chain management, procurement, and billing operations, ensuring accuracy and efficiency in logistics workflows.
- Worked closely with package and damage investigation teams to track shipments, resolve delivery issues, and process claims.
- Managed and closed escalations for claims, maintaining compliance with company standards while ensuring customer satisfaction for international clients.
- Executed supply chain workflows by coordinating procurement activities, validating purchase orders, and ensuring compliance with organizational standards.
- Streamlined billing operations by reconciling invoices, resolving discrepancies, and supporting financial accuracy in logistics transactions.
- Conducted package investigation through data tracking, root-cause analysis, and system-based monitoring to identify and resolve shipment exceptions.
- Performed damage investigation by documenting incidents, analyzing claims, and recommending corrective measures aligned with quality standards.
- Managed escalation closure by prioritizing high-impact cases, collaborating with cross-functional teams, and ensuring SLA compliance for claims resolution.

EDUCATION

Bachelor in Technology | ITER, SOA University |

Intermediate | IHSE, Bhubaneswar |

Matriculation | DAV Public School, Chandrasekharapur, Bhubaneswar |

PROJECTS

Nalco Potline Project – Mechanical Engineering

- Conducted detailed study of potline operations in the aluminum smelting process, gaining insights into large-scale industrial systems.
- Analyzed mechanical and thermal efficiency, identified process inefficiencies, and proposed optimizations.
